

WHAT IS THE ELGATOR PUTTING MAT

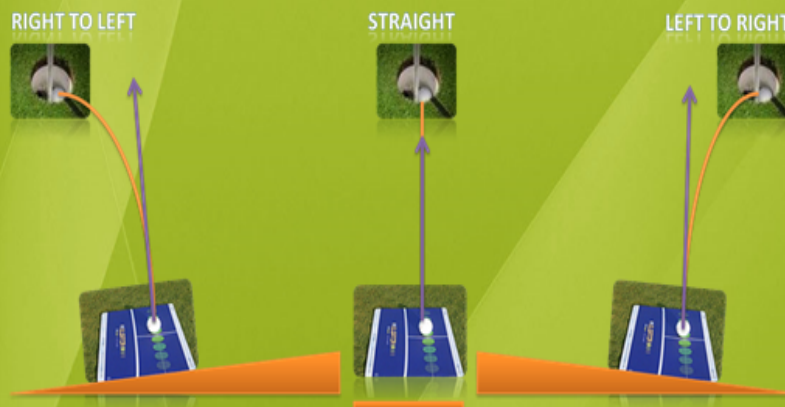

The Elgator Putting Mat is a unique and sleek training aid placed in front of the golfer's feet. The mat is a visual guide for proper body positioning important to achieving ultimate putting accuracy and consistency. The mat's instructions are simple and easy to use. The Elgator is light-weight and fits into any golf bag.

HOW TO USE ELGATOR PUTTING MAT

THE ELGATOR PHILOSOPHY

"Every putt is a straight putt"

1. Line the Elgator up to correctly reading the line of the putt.

The orange triangles indicated the slope of the green. The purple line indicates a rough estimate of where you're Elgator should aim.

2. Place the golf ball on one of the middle Elgator ball in front of the square line.
3. Forget everything else you are correctly aligned to sink the putt, simply focus on:

- Look at the hole once more before putting
- Think 'pace' and make a putting stroke rolling the golf ball smoothly over the line of Elgator balls.
(See image below)

Safe to pin down with a tee in windy conditions.

Never leave it short!
100% of all short putts never go in the hole.
